FRAME INFORMATION

Frame Manufacturer

Frame Type: Steel Wood Aluminum

Frame Application: Interior Exterior

Flush Doors

To Avoid Conflicts between Lite and Lock

For Non-Rated and 20-Minute Particlecore Doors
Allow a minimum of 3-5/16" of core between lite and lock cutouts, and 5" from edge of door to lite cutout to maintain warranty.

For All Rated Doors (45, 60 & 90 Minute)
Allow a minimum of 3-1/2" of core between lite and lock cutouts, and 5-1/2" of core from edge of door to lite cutout to maintain label and warranty.

Our Full Lite Door Construction for Non-Rated and 20-Minute
Can maintain a warranty with only 1-1/2" of core between lite and lock cutouts.

Our Full Lite Door Construction for 45-Minute
Can maintain a warranty with only 3" of core between lite and lock cutouts and 7-1/8" stiles for doors with concealed vertical rod hardware utilizing SCL core.

Note: When using a metal vision frame, allow for oversized frame cutout.
