

# DUTCH DOOR DETAIL

To be used in conjunction with Schedule B

## Dutch Door Notes:

- Eggers standard clearance between the top leaf and bottom leaf is 1/8"
- Prefinished shelves must be factory installed
- Non-rated and 20-minute rated flush Dutch Doors must be constructed of SCL Core
- 45-minute (construction tag only) Dutch Doors must be constructed of mineral core
- Maximum STC rating on a Dutch Door is 44
- Please review the "Dutch Door-20 minute" document on the Eggers website for hardware, shelf, and size restrictions for 20 min rated doors
- When ordering pairs of rated Dutch Doors, please take into consideration all closing/latching requirements
- Mineral core Dutch Doors use standard shelf construction. Shelf is only available on the face of the door, not the top.
- Standard shelves are compatible lumber with veneer and crossbanding applied. Bull-nosed or radius-cut available with special shelf pricing.
- Stile and Rail Dutch Doors require a minimum 5" bottom rail on the top leaf and a minimum 5" top rail on the bottom leaf
