A sample set consists of 3 samples and all 3 sample pieces should be utilized when determining whether or not finished product falls into the approved range. our sample sets represent Eggers' finish quality and standard satin sheen (unless noted otherwise). A finish sample set represents a light, medium and dark veneer color in the finish specified. Some of the products on your order could be lighter and/or darker than the sample set dependant upon the base veneer of the samples. A maximum of three sample sets are provided free of charge. Please contact your Project Coordinator for pricing on additional sample sets.
