

# Mini-Blind Glass Units

## Information Bulletin 410

Eggers Industries

Date: July, 2013

### Subject: Mini-Blind Glass Units

Eggers Industries is able to provide doors incorporating mini-blind glass units. These units are supplied by more than one vendor, resulting in different size availability, options, lite bead requirements and cost. These units are only available as factory-glazed. See the table below for a summary of the offerings.

Generally, the mini-blinds are encapsulated between 2 pieces of 1/8" tempered glass. The controller(s) that tilt and raise the blinds are available on one side only. **The customer must specify which side of the door (INSIDE or OUTSIDE) the controller needs to be installed on.**

#### Key Features:

	<u>Vendor 1</u>	<u>Vendor 2</u>
