

DOORS AND VENEERED SOLUTIONS FOR THE HOSPITALITY INDUSTRY

Eggers Industries

Eggers Industries provides custom design and construction solutions for the hospitality industry. From large, five-star hotels to elegant restaurants and 24-hour casinos, we provide quality products that make hospitality venues more fun, more interesting and a lot more functional. Whether it's a majestic, oversized door for a grand ballroom, curved plywood paneling for the lobby or an imposing conference top in a meeting room – Eggers' meticulously crafted products surpass the highest industry standards.

Turning nature's beauty into works of art

Stile & Rail Doors

Eggers' stile & rail doors offer you the ultimate in terms of aesthetics and performance. Whether you're looking for an ornate colonial look or a clean contemporary feel, we can help you achieve your design vision. We have an extensive range of design styles and finishing options to suit every taste. We can also custom manufacture stile & rail doors to your exact specifications.

Stylus Doors

The Stylus product line by Eggers combines the superior functionality of a quality 5-ply flush door with the classic elegance of a stile & rail door. Its most commanding feature is its economical price – it is a cost effective alternative to true stile & rail doors.

Acoustical Doors

Our acoustical doors provide superior sound control – an absolute necessity for successful meetings and conferences. The noise-retardant doors not only keep distracting sounds out of the meeting room, but will also keep information discussed from being overheard. Our doors have the highest STC ratings in the industry – STC 40 for true stile & rail doors and STC 52 for flush doors.

Fire-Rated Doors and Frames

Eggers' fire-rated doors offer unbeatable functionality and visual appeal. Our flush doors, true stile & rail doors and veneered door frames are fire-rated up to 90-minute. Solid lumber frames are rated up to 45-minute. True-divided lite doors have 20-minute ratings while full-lite doors are 20 and 45-minute rated.

Oversized Door Capabilities

Fabrication and construction of oversized doors is a key Eggers specialty. Our non-rated flush doors can measure up to 6' wide or 16' long. Stile & rail doors can go up to 4' x 11' for singles and 8' x 11' for non-rated pairs.

Concealed Hardware

It's all about visual appeal in the hospitality industry. Eggers appreciates the need for aesthetics without any compromise to durability and performance. We are able to reinforce the sturdiness of our doors through clever and innovative use of concealed hardware. Available concealed options include:

- No metal meeting edges on pairs
- Recessed metal edgeguards
- Concealed vertical rods

Architectural Paneling and Veneered Components

From the check-in counters to the bell stations and the concierge desk to the cocktail bar and waiting area, Eggers' finely crafted and intricately matched wood paneling and veneered components lend ambiance while completing your look and vision.

Our architectural wall panels are custom fabricated from the widest selections of hardwood face veneers. We are able to produce paneling with any requirements, including:

- Reveals and inlays for featured areas
- Veneered ceiling tiles
- Curved, flat, shaped and oversized panels
- Sequence and blueprint matching

Conference Tops

Our renowned conference tops are found at the finest hotels and meeting places in the world. We have the ability to produce custom conference tops to any size or shape.

- Single pieces up to 72" wide x 120" long
- Multiple pieces can be sequenced and end-matched for larger sizes
- Inlays and multi-specie assembly

Finishing Touches

We have an extensive array of finishes and finishing options to meet any specifications. They include:

- An environmentally-friendly UV Gardall system that contains no added formaldehyde and is free of Volatile Organic Compounds (VOC)
- Specialty glass/factory glazing for both fire-rated and non-rated doors
