

# DOORS AND VENEERED SOLUTIONS FOR OFFICES AND CORPORATIONS

**Eggers Industries**

Whatever your vision may be, Eggers can put it into form. Whether you need a custom bookshelf in a rural office or a conference top in the White House Cabinet Room, Eggers' meticulously crafted products and custom designs provide the perfect door and veneer solutions needed to enhance company image and promote greater work satisfaction.

Turning nature's beauty into works of art

## Eggers Doors and Frames

Eggers Industries is a comprehensive resource for outstanding doors and frames. Our doors, whether 5-ply flush, stile & rail, Stylus or impact-resistant eiDoors®, make strong and lasting impressions. Eggers' fire-rated flush doors, stile & rail doors and veneered door frames are available in ratings up to 90-minute. Solid lumber frames are rated up to 45-minute. True-divided lite doors have 20-minute ratings while full-lite doors are 20- and 45-minute rated.

## Acoustical Capabilities

Our Soundwood™ acoustical capabilities result in exceptional sound control – an absolute necessity for successful meetings and office productivity. Our noise-retardant doors keep distracting sounds out of meeting rooms and offices, and prevent information discussed from being overheard. We use different methods and materials to achieve varying acoustical properties—from choice of core material for STC-rated doors to machining of panels for enhanced acoustics. Eggers' doors have the highest STC ratings in the industry – STC 40 for true stile & rail doors and STC 52 for flush doors.

We also offer an acoustical wood frame available with an STC sound test report up to an STC 45. Eggers' acoustical wood jambs allow the beauty of our doors to be accented with matching wood frames designed to create a cohesive look metal frames cannot match. Eggers' two-piece acoustical frame is sold exclusively in combination with Eggers' Soundwood™ acoustical doors.

## Sidelites, Transoms and Mini-Blind Units

Eggers offers an extensive variety of sidelite and transom options, glass styles and size combinations to meet any aesthetic and functional need. Our *Silhouettes*™ Specialty Glass Collection provides numerous options to enhance entryways with glass and natural sunlight. We also offer mini-blind glass units with adjustable levels of privacy. The blinds are secured between two sheets of 1/8" tempered glass for easy cleaning and maintenance, and are available with tilting and raising options.

## Architectural Paneling and Components

When it comes to creating ambiance and lending character to any environment, nothing compares to the versatility and understated richness of wood. Eggers' architectural wall panels and components are fabricated from the widest selection of hardwood veneers. We are able to meet your custom requirements, including:

- Reveals and inlays for featured areas.
- Sizes up to 72" wide x 192" long.
- Veneered ceiling tiles.
- Curved, flat, shaped and oversized panels.
- Cased goods and bookshelves.

## Veneer Matching

We have the matching capabilities to achieve maximum continuity of grain and color for various size panels, doors and other components. Our in-house capabilities ensure detailed and exact veneer matching. Options include:

- Sequence
- Sunburst
- Blueprint
- Box
- End Match
- Diamond

## Conference Tops

Eggers's conference tops play a central role in numerous offices across the country. The Cabinet Room in the White House is one of many boardrooms our custom tops can be found. We can produce custom conference tops to any size or shape:

- Single pieces up to 76" wide x 192" long.
- Multiple pieces can be sequenced and end-matched for larger sizes.

## Sustainability and Quality Certification

Eggers is certified by the Rainforest Alliance to manufacture products in accordance with the Forest Stewardship Council™ (FSC®) standards. Eggers' wide range of finish options are anchored by a Gardall UV-cured system that meets WDMA and AWI standards for curable finishes. It consists of water-based stains and 100 percent solid coats that are free of VOC. Eggers also maintains AWI QCP certification for projects requiring superior woodworking.
