**FOR IMMEDIATE RELEASE**

### **Eggers Industries receives SCS Certification for its wall panel products**

SCS Global Environmental Certification Services has completed an Indoor Advantage™ Gold certification assessment of Eggers Industries' wall panel products. As a result, Eggers is proud to announce its certification has been approved.

Wall panel products, including Eggers' Architectural Plywood, are manufactured in both Two Rivers, WI and Smithfield, KY. SCS' lead auditor completed an all-encompassing assessment of the quality management for each manufacturing site and product emissions review to determine conformance to SCS EC 10.3 - 2014 Indoor Air Quality Performance Standard and CA 01350 (CDPH/EHLB Standard Method v1.2-2017, effective January, 2017).

The certification assessment has been completed in accordance with SCS' quality management system, ISO 19011 standard auditing practices, ISO 17065 and has been approved by the program manager. Eggers is now united with other businesses and organizations around the world working to provide products and services that meet the highest environmental, social, and quality standards.

### **About Eggers Industries**

With two divisions in Northeast Wisconsin and one in Kentucky, Eggers Industries manufactures architectural flush doors, true stile and rail doors, solid lumber and veneered door frames, table tops, veneered plywood panels, wood ceiling tiles, veneer wrapped trims and custom veneered components for premier commercial projects throughout the United States.
