

WEBSITE UPLOAD PORTAL

Eggers Industries has developed a secure portal for sharing large documents. The portal is available from Eggers' websites' home page using your computer or mobile devices.

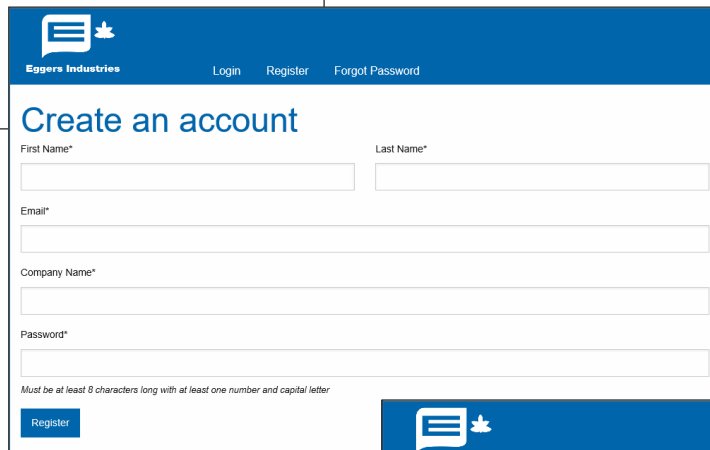

How to begin using Eggers' portal:

1. Registration is necessary for users
 - a. If your account is inactive for 90 days the account will be disabled
 - b. If your account is inactive for one year the account will be deleted
2. When you complete the registration process you will be able to upload files to Eggers and Eggers to you
3. Files remain on the site for 30 days; this provides ample time to download files to an appropriate location
4. You can choose to be notified when a file is viewed, downloaded, or ready to be downloaded
5. The portal can transfer files up to 256MG per upload

The portal is available and ready to use. See back page for more information. Contact Eggers if you have any questions or need assistance.
